

The chem-acs bibliography style for biblatex*

Joseph Wright[†]

Released 2021/02/24

This package provides a style for biblatex which follows the guidelines of the American Chemical Society.¹ The citation style is numeric and unsorted. The bibliography style follows the pattern of the layout used in the journal *Journal of the American Chemical Society*. The citation style is numeric and unsorted. The bibliography style follows the pattern of the layout used in the journal. The style should be loaded in the usual way

```
\usepackage[style = chem-acs]{biblatex}
```

The References section of this document demonstrates the format generated by the package using the biblatex-chem.bib database of example records.
